## PROFILE

Email developer knowledgeable in creating and implementing HTML and CSS emails. Seeking to use my proficiencies of developing and marketing skills to effectively serve your company at an entry-level. I am dedicated to exhibiting my hard work and committed to becoming a dependable and valuable member of the team.

---

## EMPLOYMENT HISTORY

Sep 2021 — Present

### Email Developer

Little Rock

Design eye-catching email layouts that lead to higher levels of engagement and increased click-through rates. Code HTML CSS email from scratch using standard-compliant code. Manage execution processes like setup, design, development, testing, and launch. Ensured email rendering and testing using Litmus.

2019 — 2020

### Operations Coordinator, US Foods

North Little Rock

Functioned with expert level proficiency in daily operations, and addressed any challenges with optimism and drive. Utilized Manhattan, Tandem, Retatlix, Excel, and other warehouse systems and software to enhance the operational flow of products throughout each storage area of our facility.

2018 — 2019

### Production Technician, Sage V

Little Rock

Prepared orders by processing requests and supply orders; pulling materials; packing boxes; placing orders in the delivery area. Maintained inventory control by collecting stock location orders, printing requests, recording the number of materials or items received or distributed through a computer. May also assist in counting physical inventory. Organized warehouse and work area for orderliness at all times.
